

Series UPX-MD, Modular system for indoor walls

Modular

A system of cabinet formats that can be combined: wide, narrow, corner, double-sided. For shops, trade shows, foyers and museums.

Pixel pitch
1.5 to 5.2 mm

Formats
5 combinable

Modular is a kit of five cabinet formats. The formats share modules and connections, so they can be mixed in one wall.

This turns rectangles into a column, a corner around a shop window or a cube. All formats are 42 to 45 mm thin and are maintained from the front.

Mixing formats. Modular X and Modular Strip share the same modules, as do Modular Max and Modular Pro. Spare parts for the whole wall fit in one box.

45° edge. Modular X is available with a bevelled edge. Two cabinets form a clean corner, also for columns and cubes.

Rotatable. The modules are symmetrical. Cabinets can be installed rotated by 90° and offset, without new colour calibration.

Bright enough for shop windows. High-brightness versions up to 3000 nit for surfaces behind glass in daylight.

Format	Cabinet	Weight	Pitch	Brightness
Modular X	1000 × 500, 750 × 500 or 250 × 500 mm, 42 mm deep	11 / 8 / 3.5 kg	P1.5, 1.9, 2.5, 2.6, 3.1, 3.9, 5.2	600 to 800 nit, high-brightness up to 3000 nit
Modular Strip	1000 × 250, 750 × 250 or 500 × 250 mm, 42 mm deep	5.7 / 4.2 / 3.1 kg	P1.9, 2.6, 3.1, 3.9, 5.2	800 to 1000 nit, high-brightness up to 3500 nit
Modular Max	1024 × 576 mm, 42.5 mm deep	11.6 kg	P1.6, 1.9, 2.6, 4	700 to 900 nit
Modular Pro	1024 × 288, 768 × 288 or 512 × 288 mm, 42 mm deep	6.8 / 5.6 / 4.8 kg	P1.6, 1.9, 2.6, 4	800 nit, high-brightness up to 4000 nit
Modular Dual	500 × 1000, 750 × 250 or 500 × 250 mm, 43 to 45 mm deep	11.5 to 12.5 kg (500 × 1000)	P1.5 (COB), 1.9, 2.6, 3.9	800 to 3500 nit depending on version

Specifications

Material	Die-cast aluminium (Pro: extruded aluminium profile)
Maintenance	from the front (Duo single-sided: from the rear)
Pixel pitch	1.5 to 5.2 mm
