

Series UPX-TO, Outdoor LCD totem 49 and 55 inch

Totem LCD Outdoor

Outdoor LCD totem with 3000 nit. For wayfinding, mountain railways, car parks and smart city projects.

Screen	Brightness	Protection rating
49 inch or 55 inch	3000 nit	IP66, IK10

Outdoors, an LCD makes sense where text and fine graphics are read at short distance. Totem LCD Outdoor has 3000 nit and optically bonded glass that does not reflect or fog up.

The housing is modular. Screen and electronics can be replaced separately.

Optically bonded. Screen and glass are bonded without an air gap: less reflection, no condensation.

Robust. IP66 against water and dust, IK10 against impacts.

Around the clock. For continuous operation 7 × 24 hours, with temperature control.

	49 inch	55 inch
